By **ATDI**

1. Unique Style Emirates Airlines like style, people who are confident, Have their own style and character that looks unique and unique
2. Good English Skills - Emirates likes the crew with the skills and level of English communication at a good level - very good, is a professional English accent and Clear English and has an accent that looks like an intercom too. Even though the airline has no TOEIC as a measure, but don't forget the English Test of the airline, and it is more difficult than TOIC. Therefore, if any candidate with good English skills It is not difficult to do the tests in this part. The third language, if possible, is considered good but asked if it is very important. It is not that much because the most important communication language used to communicate with passengers is English.
3. Good Problem solving skills with good acumen and problem solving skills Solve problems immediately Is quite self-sufficient but not aggressive Called to be durable in dealing with passenger
4. High Self-Confidence But it shouldn't be too much. Or should not show that we are confident until we see other colleagues' heads This is not exactly the way the Emirates wants. Confidence should be based on fit and not too aggressive. Don't forget that the cabin crew must work as a team and have to work under the commander in that file. No one is above or better. Anyone but everyone just need to work together and complete the work in each round with perfection in accordance with the service standards of Emirates.
5. Professional Grooming & Make-up Dressing clothes that look good, look professional, look carefully. Make yourself up and dress yourself to look good without having to go to a

beauty salon. Because every cabin crew, when getting a job, must be able to makeup. Make yourself look good every time before flying and before performing duties.

6. Take the initiative. Emirates airlines like people who can start doing themselves. Without having to wait for someone to be able to match and be able to do it. Assertiveness is that we express ourselves with words or behaviors that we have opinions on a particular subject without obscuring or crooking but not aggressive Or daring to insist on doing the right thing without being rude Or called Stand up for the right thing

7. Cultural Awareness The Emirates crew must know and accept and honor people from different religions and cultures with us. Which does not have the same beliefs as us Due to the number of crews of more than 120 nationalities from various religions and from all over the world that have to come together Therefore, it is very important and important to emphasize respect and understanding of different cultures.

Conclusion

The reason why many people choose to work with Arab Airlines, despite having to move to that country It is because these Arab airlines provide higher wages than other airlines and Arab Airlines also provide flights to various locations around the world and still open new routes to make those who Working with these airlines in addition to getting higher wages Still have the opportunity to travel to various places More than

Even though income and opportunity to travel at various places Will be a great temptation to pull people from different nations To work with Arab Airlines But must not forget that people in these countries are quite likely to define the rights of women in society So when these airlines want to recruit women to work too Therefore there are various rules That restricts women's rights

And of course, women who work in these countries are not protected by the rights of basic labor laws like their own countries. For example, these women were restricted to the right to participate as members of various organizations. Or the right to freedom of negotiations in various matters.
