

## Tourism Management of SSRUIC arranged "The memorable experience of walking to explore Bangkok particularly the inner zone"

Our last weekend (and Monday) 9-8 October 2018) was another memorable experience of walking to explore Bangkok particularly the inner zone or the old area of the city. We, lecturers and students of the Tourism Management Program enjoyed this walking trip very much. We visited 15 temples and royal mansions, including the Grand Palace and the Temple of the Emerald Buddha. We had this trip this semester so that the 2nd and 3rd year students had opportunity to show their potential in describing sites of historical, cultural, art and architectural significance in English, as well as their tourist guiding skills. The 1st year students also joined the trip; it was a great time for them to know more about Bangkok the capital city of Thailand, our big learning source, and the historical, art and cultural aspects of the city. The trip was also for introducing teaching and learning traditions of the Tourism Management Program, SSRUIC to the 1st year students.
